Commissioner for Patents

Applicant has submitted an IDS (under 37 CFR 197[d]) after a notice of allowability was mailed to applicant. Examiner can not consider the IDS since the reference contained in the IDS was known to the inventor [the reference listed in IDS was inventor's own previous patent; further the reference is discussed in the specification of the allowed application] more than 3 months prior to filing of the IDS. Therefore, the reference in the IDS has been lined through and not made of record.
